

**Update on Aadhar Based TOTP eSigning**

Dear User,

This is to inform you that a new option of Aadhar based digital signing, TOTP (Time-based One Time Password), has been introduced as part of the DDE eSign service.

Kindly note that TOTP will be selected as the default option in the CDAC page. In case the customer intends to use the Aadhaar OTP based signing, then the customer will need to select the Aadhaar OTP option as shown in the below screenshot.

The screenshot displays the 'CDAC's e-Sign Service' interface. Under 'View Document Information', there are three radio button options: 'Aadhaar Number', 'Virtual ID', and 'UID Token'. The 'Aadhaar Number' option is selected. Below this, there is a text input field for 'Enter Your Aadhaar Number'. The 'Aadhaar TOTP' option is selected and highlighted with a red box. Below it is a text input field for 'Enter Your Aadhaar TOTP'. There is a 'Get Virtual ID' link and a 'How to generate TOTP?' link. A consent statement is present, followed by a 'Listen to Consent' button and a language dropdown menu set to 'English'. At the bottom, there are 'Submit' and 'Cancel' buttons.

**Following are instructions to generate TOTP for new user/ registered user (Information is available on C-DAC ESP Page)**

**For New Users:**

1. Download the mAadhaar app from play store
2. Create your profile on mAadhaar
3. After making your profile on mAadhaar, you will be able to see your Aadhaar card on mobile
4. Verify your Mobile Number by clicking on Verify Email/Mobile service on mAadhaar App
5. Click on My Aadhaar icon to see Get TOTP option for generation of Aadhaar TOTP
6. Click on Get TOTP on the My Aadhaar screen for generation of Aadhaar TOTP
7. You will see a unique 8-digit code which will be valid for 30 seconds
8. You can use that code (TOTP) instead of OTP to perform eSign

**For Registered Users:**

1. Open the mAadhaar app on your mobile
2. Click on My Aadhaar icon to see Get TOTP option for generation of Aadhaar TOTP
3. Click on Get TOTP on the My Aadhaar screen for generation of Aadhaar TOTP
4. You will see a unique 8-digit code which will be valid for 30 seconds
5. You can use that code (TOTP) instead of OTP to perform eSign.

Your feedback is important to us, and we welcome any suggestions to improve our services. Please write to us at [suggestions@nesl.co.in](mailto:suggestions@nesl.co.in).
