Date: 04th November 2025

Face Authentication for e-Signing on the DDE Platform

We would like to draw your attention to Circular No.: NeSL/DDE/2025/0211 dated 06-08-2025.

We are pleased to announce that the DDE platform now supports Face Authentication for e-signing, enabled through UIDAI's newly introduced face authentication feature. This serves as an additional mode of Aadhaar-based authentication, providing users with a seamless, secure, and user-friendly e-signing experience.

This feature is now live in production. We request all DDE users to take note of this enhancement and initiate implementation at their end at the earliest.

For your reference, the below linked document provides step-by-step guidance on using the face authentication-based e-Sign process.
